Choi Soon Ho

Instructor · Researcher

sosaror@gmail.com · snow0821.github.io

Current Activities

2026.08-2026.10	**Goyang Smart Citizen** · EduCore Center AI-assisted web development course · Codex work assistant course Taught AI-assisted web development and deployment, LLM agents and Codex work-assistant creation.
2026.06-2026.10	**PBL facilitator** · MODULABS Codyssey · AI Native course · Innovation Academy Coordinated learning issues, supported assignments, and organized and ran general-interest seminars.
2023.03-Present	**Freelance online programming education** · Coderland Python/C++ data structures and algorithms, individual tutoring and Informatics Olympiad preparation.

Degrees & Qualifications

2025	**Artificial Intelligence · M.E** Graduate School of Software Convergence, Kookmin University
2019	**Computer Science and Electrical Engineering · B.E** School of Computer Science and Electrical Engineering, Handong Global University
2026	NCS-registered instructor · Artificial intelligence

Teaching Experience

Period	Program / Institution	Audience / Teaching
2026.10	**K-High-Tech Platform** Elice Group	**Hana Life employees** **Practical Data Service Design with AI (STEP 2)** · Instructor AI PoC exercises based on business-problem definition and PRDs, with project feedback.
2026.07	Elice Group	**LG Innotek employees** **AI/AX Lv2 classroom training** · Instructor AI/AX instruction and hands-on practice, with feedback on workplace project plans and presentations.
2026.05 · 2026.07	**Practical Generative-AI Skills Training** ABLEARN	**Paju City Hall public officials** **Generative AI for Public Communications and Administrative Reports** · Assistant instructor Supported AI reports, event plans and public-information content using Canva and MiriCanvas.
2025.04 - 2025.07	**Youth SW Donghaeng** EduCore Center	Guided AI project planning, implementation and presentations, with feedback. **Jeohyeon High School · Yeongjong High School** · Instructor A GPT-powered world: Apps for responsible consumption **Guryong Middle School · Seowon High School** · Instructor AI-assisted traffic signal optimization: Accessible transport systems **Seoul Digitech High School** · Instructor AI for the environment: Building a wildfire prediction model

Period	Program / Institution	Audience / Teaching
2024.12 - 2025.01	**Digital Saessak · 2024, Round 3** Elice Group	**Winter-program instructors** **Easy-to-Learn Artificial Intelligence · Instructor Workshop** AI, ML and DL fundamentals; AI ethics; data analysis and visualization; conversational AI.
2023.05 - 2024.12	**Digital Saessak** Elice Group	AI, data-analysis and programming project exercises and learning support. **Munchang Middle School** · Lead instructor Easy-to-Learn Artificial Intelligence **Cheongwon Girls' High School** · Lead instructor Make! Solving Problems with Arduino **Hwagok High School** · Assistant instructor Challenge! Solving Incheon's Local Problems with Data Analysis **Mirae High School of Science and Technology** · Lead instructor Creating Web Apps with AI **Sudo Electric Technical High School** · Lead instructor Step-by-Step Introductory Data Analysis · Step-by-Step Applied Data Analysis · MISSION: Creating Web Pages with AI **Ansan Design Culture High School · Seoul Robotics High School** · Instructor Do IT! Practical Web Programming
2024.09 - 2024.11	**SW Donghaeng** Elice Group	Python/Orange3 project instruction and coordination with university-student mentors. **Haseong High School** · Lead instructor Local Food Meal Maker **Jamsil Girls' High School** · Lead instructor Digital Problem-Solving Project: Healthy Living (Advanced) **Munhak Information High School** · Lead instructor AI-Tailored Exercise Prescription Program **Handong International School** · Instructor Python programming **Sangincheon Middle School** · Lead instructor Advanced Healthy Living · Orange3 Fundamentals
2024.02	Elice Group	**LG CNS employees' children** **Children's Coding School** · Instructor Delivered coding education for employees' children.
2023.08 - 2023.12	**Customized Elective Program**	**Gosaek High School** **Computer Science** · Instructor Prepared semester and assessment plans; taught computer science and ran performance assessments.

Research Activities

Neural Network Quantization · Neural Architecture Learning

2026 **Learning to Wire: End-to-End Operand Selection for Symbolic Logic Networks**

Symbolic Logic Networks · Operand Selection

Authors: Soon Ho Choi (First author), Soo Yong Kim

Venue: 2026 International Joint Conference on Neural Networks (IJCNN)

2025 **Binarization of Ternary ViT on Image Classification**

Network Binarization · Vision Transformers

Authors: Soon Ho Choi (First author), Jae Young Im, Soo Yeon Yoon

Venue: KICS Winter Conference Proceedings · pp. 668-669 · 2025.02

2024 **Comparing accuracy of sign-quantized layers with linear layer in small models**

Weight Quantization · Low-Bit Neural Networks

Authors: Choi Soon Ho (First author), Soo-Yeon Yoon

Venue: KICS Summer Conference Proceedings · pp. 847-849 · 2024.06

Professional Experience

2025	**Mincoding** · Teaching assignments T Academy · Coding-test preparation course · Instructor: Coding-test problem solving and study methods, Python data structures and algorithms. Samsung SDS · SW competency test Pro · Assistant instructor: Assisted SW competency test Pro and algorithms training.
2024.03-2024.05	**NoTitle** · Full-stack developer Backend: FastAPI · Frontend: Next.js and React.
2022.08-2022.10	**TED · MyMabu** · Frontend developer Service frontend development with HTML, CSS and JavaScript; Naver and Kakao OAuth login, identity verification and payment API integrations.
2018.12-2019.01	**Cleaning Reservation & Management Service** · Developer Developed cleaning reservation and space-management functionality and handed over source code and the MySQL database structure.
2014.06-2015.01	**Manlev Games · Summon Rush** · Game designer Mobile-game level design, story, balancing, probability and monetization design.

Other Activities

2022	**Goorm K-Digital Training · AI Natural Language Processing Specialist Program** · Completed Machine-learning fundamentals and NLP model implementation, including LSTM, using Python and Jupyter Notebook.
2020.07-2021.11	**42 Seoul** · La Piscine participant · Core-program Cadet La Piscine: 2020.07-2020.08. Core program (Cadet): 2020.09-2021.11.
2018	**KimAnNa · Recruitment SNS Capstone Project** · Web development Implemented feed, friend-relationship, comment and chat features with database and server integration.
2017.09	**Kookmin University open-source hackathon · OpenAIThon** · Participant · AI project development Project proposals, data and game design, Python-based competitive-learning game experiments, and result presentations.
