

# Choi Soon Ho

Independent Researcher · Freelance Instructor

## Education

| Year | Field · Degree                                                | Institution                                                                      |
|------|---------------------------------------------------------------|----------------------------------------------------------------------------------|
| 2025 | <b>Artificial Intelligence</b><br>Master of Engineering (M.E) | Graduate School of Software Convergence, Kookmin University                      |
| 2019 | <b>Computer Science</b><br>Bachelor of Engineering (B.E)      | School of Computer Science and Electrical Engineering, Handong Global University |

## Qualification

|      |                           |                         |
|------|---------------------------|-------------------------|
| 2026 | NCS-registered instructor | Artificial intelligence |
|------|---------------------------|-------------------------|

## Research Interests

|                                                  |                                           |                                                 |

## Publications

|      |                                                                                                                                                                                                        |
|------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 2026 | <b>Learning to Wire: End-to-End Operand Selection for Symbolic Logic Networks</b><br>Authors: Choi Soon Ho, Soo Yong Kim<br>Conference: 2026 International Joint Conference on Neural Networks (IJCNN) |
| 2025 | <b>Binarization of Ternary ViT on Image Classification</b><br>Authors: Choi Soon Ho, Jae Young Im, Soo-Yeon Yoon<br>Conference: KICS Winter Conference Proceedings, pp. 668-669, February 2025         |
| 2024 | <b>Comparing accuracy of sign-quantized layers with linear layer in small models</b><br>Authors: Choi Soon Ho, Soo-Yeon Yoon<br>Conference: KICS Summer Conference Proceedings, pp. 847-849, June 2024 |

## Teaching & Learning Support

| Period            | Organization       | Course                                          | Role                 |
|-------------------|--------------------|-------------------------------------------------|----------------------|
| 2026.08 - Present | EduCore Center     | Goyang Smart Citizen · AI-assisted web creation | Instructor           |
| 2026.06 - Present | MODULABS           | Codyyssey                                       | PBL facilitator      |
| 2023.03 - Present | Coderland          | Python & C++ · Data structures & algorithms     | Online instructor    |
| 2026.07           | Elice Coding       | LG Innotek · AI/AX Lv2                          | Instructor           |
| 2025              | Mincoding          | T Academy · Algorithms course                   | Instructor           |
| 2025              | Mincoding          | Samsung SDS · SW competency test Pro            | Assistant instructor |
| 2025              | EduCore Center     | SW Donghaeng · AI-assisted web apps             | Instructor           |
| 2023 - 2024       | Elice Coding       | SW Donghaeng · AI-assisted web apps             | Instructor           |
| 2023 - 2024       | Elice Coding       | Digital Saessak · Web programming               | Instructor           |
| 2023              | Gosaek High School | Computer science elective course                | Instructor           |
